**Pre-requisite of  
Foundations/Beyond Limits  
class is waived  
for this class.**

***Sign up after service!***

*"When one individual is true to his or her vision, it assists in liberating everyone. When even one individual neutralizes the thought forms of separation and lack that run rampant in the human experience, he or she creates a spiritual vortex that allows others to be pulled into that same vibration."*

~Rev. Michael Bernard Beckwith

Visioning is a powerful spiritual practice that transforms our lives as we participate in it. In this course you will awaken to the transformational nature of Visioning, learn the Visioning process, and understand the organic nature of manifestation. Visioning is a spiritual practice and a way of life not simply a tool to use. As you deepen in this practice through this course you will find the avenue to reveal the powerful and rich life that is calling you forth.

In this eight-week class you will explore the stages of spiritual development as you learn the Visioning process. You will use this process to deepen your own personal walk as a spiritual being along with opening to the greater good for the community and the world. You will have the opportunity to deepen in your realization of Oneness and the manifestation process that will enrich your relationships, work expression and overall happiness.

***Let the inner ear listen to the voice of truth  
that is always speaking.***

***—Ernest Holmes***
